MultiValores Grupo Financiero Picks Haydrian's XM3 Anti-Money Laundering Solution

*MultiValores to protect their growing financial group by acquiring
Haydrian's Risk Management Solution to bolster compliance procedures*

Mexico D.F., Mexico – August 17th, 2006: MultiValores Grupo Financiero, a diversified Financial group with more than 30 years of experience in the Mexican financial market, recently acquired Haydrian's[®] XM3[®] Anti-Money Laundering (AML) solution for use in their emerging banking operations. Multivalores plans to use XM3's advanced risk management capabilities for their brokerage, mutual funds and leasing operations. Haydrian International, a provider of world-class risk management technology, was selected by MultiValores due to Haydrian's subject matter expertise in AML practices and XM3's capacity to integrate with virtually any core financial application.

"We selected Haydrian's XM3 due to the versatility and flexibility of the solution. We like XM3's user friendliness and the way in which XM3 will allow us to adapt easily to changing market conditions and evolving internal policies" said Mr. Guillermo Cobián, Multivalores Director of Compliance Management. By integrating XM3, MultiValores can devote more time on satisfying client needs without worrying about escalating and rigorous compliance requirements.

"A diversified financial services group like Multivalores faces intricate compliance challenges that only a versatile AML solution provider can address. Haydrian's blend of comprehensive AML technology and risk management proficiency will help Multivalores standardize compliance operations across multiple lines of business. We are very proud to have been selected by their compliance and IT professionals" said Alex Logan, Vice President of Haydrian Latin America/Caribbean.

Haydrian's solution was designed and developed by an internationally recognized management and engineering team to effectively address the increasing demands of combating money laundering and
